

# JET 1000 Flood

IP65

JET 1000 is a high performance floodlight for metal halide and H.P. Sodium lamps. Two light distributions are available, narrow and medium beam for precise illumination design. JET 1000 has the facility for the lamp

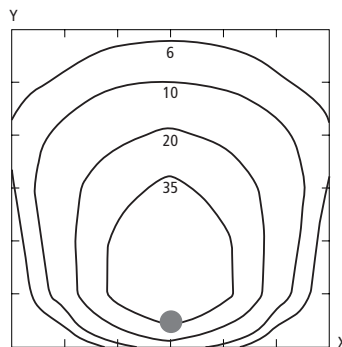

igniter to be mounted integrally and control gear is remote.

**Applications**

- Sports Venues
- Outdoor Pools
- Storage Yards
- Building Perimeters
- Security Lighting
- Car Parks

**Photometric design data**

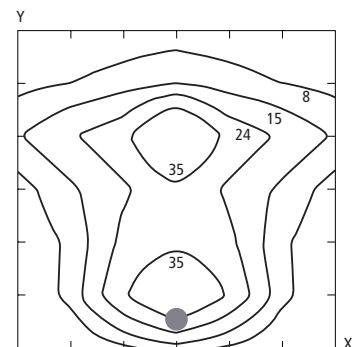

**Horizontal illumination – JET1000M 1000W HQIT (MB)**

Mounting height – 15.0m Area – 48m x 48m  
 X increments = 8.0m Y increments = 8.0m  
 Plane height = 0.0m Aiming angle – 60°  
**Windage** – 0.203 m<sup>2</sup> **Weight** – 9.7 kg

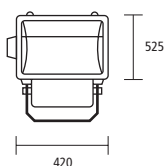

See page 99 for remote control gear options.

Not suitable for OSRAM NAVT1000 or NAVT1000I440 lamps

**Horizontal illumination – JET1000N 1000W HQIT (NB)**

Mounting height – 15.0m Area – 48m x 48m  
 X increments = 8.00m Y increments = 8.00m  
 Plane height = 0.0m Aiming angle – 60°  
**Windage** – 0.203 m<sup>2</sup> **Weight** – 9.7 kg

**Product reference**

Lamp and control gear ordered separately

JET1000M med.HQIT1000/D	NAVT600SUPER HPF
JET1000N nar. HQIT1000/D	NAVT600SUPER HPF

**Accessories**

JET1000GUARD	mesh guard
JET10005BLOU	5 blade vertical louvre
